

WEALTHY CHICAGOANS GUARDED BY POLICE

Deputies Watch Citizens Who Are Marked for Death by Bolsheviks Who Are Being Rounded Up.

GIGANTIC PLOT IS EXPOSED

Eleven Buildings to Be Blown Up in Assault of Officers Who Conduct Investigation.

CHICAGO, March 4.—Scores of wealthy Chicagoans, marked for assassination by L. W. W. Bolsheviks and other radicals, whose plot to blow up federal, city and public buildings was exposed early today, were guarded today by scores of police. The homes of the wealthy, as well as the buildings marked for destruction, are also guarded.

Shortly before noon information reached the chief of police that a group of six "reds" sent on a mission to blow up buildings in Michigan were on their way to this city from Detroit. They were to blow up the federal building and the war department building.

Groups of detectives have been sent to all stations and an alert guard posted about the threatened buildings. Shortly afterward word was received of the coming of a "red" gang from Detroit. Police were on guard at the army headquarters building. Frank Holodkevich, a known "red," was arrested about 10 a. m. and was found prowling about in an alley in the rear of the building. When searched at detective headquarters several crows, screws, wires and a quantity of dark fluid were found in his possession. He is being detained pending further examination and chemical analysis of the fluid.

Senator Assassinated.
The destruction of the Union League building was the first outrage planned. The building was to have been destroyed on the night of February 15. The failure of the plot resulted in the murder of James Patterson, an L. W. W. suspected by the police to have been implicated in the plot for assassinating "Two nights later Patterson was riddled with bullets in the hallway of a cheap lodging house at 121 West Madison street. He was killed by the police, who had been told to do his part in the bombing plot and it is believed he had threatened to "spit."

Following the murder of Patterson the authorities say the plot to destroy the other buildings was continued. According to information given the police and federal authorities, two bombs were made and ready for "use." One of the bombs was made and probably 10 inches in diameter. The second, a "radiator bomb" was 14 to 16 inches long. Both were filled with TNT. The men used to place and explode the bombs are said to have been drawn by flipping a coin. Three men were used in this manner. One was "mechanical" or "bomb" expert, thought to Chicago for the sole purpose of exploding the bombs. Another was Patterson. The third man was packed in a box and the men started downtown to "place" it on the building.

THEATER ROBBED BY BOY STILL OUT \$300 TO \$400

Detective Brauns of the local force, who has charge of the juvenile cases, left late yesterday afternoon for Sapulpa to bring back Charles Bradley, 17 years old, who is suspected of having been the youth who rifled the cash box of the Wonderland theater Monday.

The police of Sapulpa arrested Bradley late yesterday from a description sent out by the Tulsa department.

Mrs. Emma R. Johnson, owner of the theater, states that if the amount of cash found on the boy, as given out by the police of Sapulpa is true, that between \$300 and \$400 remains unaccounted for.

SEED MERCHANT MAKES BIG GAINS

Since Taking Tanlac Almond Says He Has Increased Nineteen Pounds.

"If you had seen me before I began taking Tanlac you would hardly believe me to be the same person," said A. E. Almond, a well known seed merchant of 271-3 Peters street, Atlanta, Ga.

"For more than a year," he continued, "I suffered terribly with stomach trouble. After eating anything I would always have gas on my stomach and would constantly belch up my sour, indigestible food. I suffered with heartburn constantly and was extremely nervous. My liver was sluggish and I was bilious. Now I feel luscious and tired out most of the time and often feel so bad that I could hardly attend to my business properly."

"I heard so many people praising Tanlac that I began taking it, too, and by the time I had finished my second bottle I had gained nineteen pounds. I never suffer now with heartburn or indigestion and am not nervous like I was before. I sleep well and get up in the morning feeling fine and ready for a hard day's work."

HOW SOLDIER DISPERSED ATTACKS

"For two years my stomach trouble was very bad, my doctor had to inject morphine on several occasions when I was stricken with these attacks. Some time ago I took 4 bottles of Quaker's Wonderful Remedy. I have been feeling well and am serving in the military, having been pronounced physically fit by government physicians. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation of the liver and intestinal ailments, including appendicitis. One dose will convince you of its value. Quaker's Wonderful Remedy—Adv.

CONGRESSMAN MORGAN TO STAY IN WASHINGTON

WASHINGTON, March 4.—Representative Dick T. Morgan, republican of Oklahoma, tonight announced that he would remain in Washington for the next two weeks as the committee on committees of which he is a member will tomorrow begin the stupendous task of arranging the committees which are to frame legislation under a republican congress.

Morgan, it is understood, will be given his choice of several important committee chairmanships. He will be the only Oklahoman to have an important committee place in the next congress.

"DADDY" FLYNN HERE FOR CAMPAIGN

CONTINUED FROM PAGE ONE

He says you are not old—at least until you are 180. "And it doesn't take 10 minutes a day to get perfect health and live long," he says. The condition of mind, diet and exercise are the principles of his health.

"Daddy" talks are not medical lectures on which he works.

He talks or discourses on physical

science. His commentaries say he is a whole vaudeville show. He tells the truths he has learned about health in an interesting, forceful manner. Interspersing them with hand springs in the way of gestures and he never asks you to do anything he can't do himself.

System Is Simple.

There is nothing mysterious about his system. It is very simple. To solve the question "How to get young and stay young," he says after many years' experience and practice he has reached a conclusion. It is something that Fonce De Leon never did in his search for the fountain of youth. We said it was easy and "Daddy" told us what it was. He said:

"Don't eat breakfast."

"Start out the breakfast, boy, and you'll never grow old."

People are not careless about their health because of a lack of brains but because they don't take time to use their brains. "Daddy" says people strive for money and success and neglect their health without which the fullest success or happiness is impossible. The government maintains a library with thousands of volumes intended to improve the national health—but nobody reads them. Thousands of pamphlets are mailed out but they find their way unread into waste baskets.

That's why "Daddy" is a health evangelist. He wants to teach people to live longer. There's no question about "Daddy" getting Tulsa to sit up and listen. He has made some 3,000,000 health converts in the last 10 years through his lectures.

In Kansas City 110,000 persons jammed the big convention hall to

hear his series of lectures. In other towns the attendance was: Los Angeles, 150,000; Portland, 125,000; Seattle, 115,000; Tacoma, 75,000; St. Louis, 100,000; Detroit, 50,000; Cleveland, 50,000; Pittsburgh, 50,000; Syracuse, N. Y., 105,000; Cincinnati, 100,000; Dallas, 70,000; San Antonio, 60,000; Fort Worth, 40,000; Houston, 50,000.

There isn't a chance for Tulsa to fail to keep up these wonderful attendance records for, in addition to his lessons, "Daddy" is a wonderful entertainer and is more fun than a circus, and he tells you something worth while too.

TEXAN PROPOSES TO CUT POWERS OF BIG PACKERS

EL PASO, March 4.—Recommendations of the golden rule in the meat packing industry, Lucius C. Brite of Marfa, Texas, president of the Panhandle Southwestern Stockmen's association, today urged that the power of the large packers be limited to equal and fair competition with the small packers and that, in all measures intended to regulate the packing business, care should be exercised to keep within the confines of justice.

"The cattlemen are not seeking to destroy or cripple the meat packing industry," President Brite said, "but accepting the conclusions reached by the marketing commission, the food commission and the federal trade commission resulting from the recent investigation, we are forced to the belief that unless our products are controlled by the most powerful monopoly in the world."

The Biggest Thing in Town Aside From Tulsa's Victory Week Celebration

Opie Read At His Best
Holland's for May

HOLLAND'S for May will feature "An Iron Buck," by that happiest of Southern philosophers, Opie Read. It tells how shiftless Bill Haskitt woos and wins Sidra, who might be referred to as "a bit of the old South." There is a sprinkling of humor and irony through it all, characteristic of Opie Read at his best.

"Whimsy of Whispering Hill," by Mae Van Norman Long, one of those stories that holds your interest from start to close, starts in the May issue.

And for folks who love love, there is "Silver from Spain," written by Kay Cleaver Strahan, whose magazine articles are distinguished by charm and whimsicality.

Besides fiction, the May issue will contain features of particular interest to women, including "Women of the Southwest," a series of true stories which have elicited keen approval, being in the nature of biographies of success.

Articles of helpful suggestion will include "Canning and Preserving," by Lillian Peck, B. A., R. S., lecturer and demonstrator for the College of Industrial Arts, Denton, Texas, and the treatment of draperies in the course of a series on "Interior Decoration," this installment being the contribution of Blanche A. Sloot, of the Department of Fine and Applied Arts.

The regular departments found in every issue of Holland's Magazine will not be missing—"Fashions," "Recipes," "House Plans," "Stories for Children," "Puzzles," "This for That."

Holland's Magazine is edited by men and women of the Southwest for Southwestern folks. It breathes the spirit of progress, prosperity and happiness that is typical of Southwestern people.

Well printed on splendid quality of paper. Illustrated by artists of national reputation. Clean in its reading matter and its advertising.

Published monthly—3 years for only \$2.00. No subscription accepted for less than 3 years. Subscribe now to be sure that your subscription starts with the May issue. Use this coupon.
